

Public Review Response Form

Reaffirmation of ANSI E1.34 – 2009

Referenced document: ANSI E1.34 – 2009 (R2014), Entertainment Technology -- Measuring and Specifying the Slipperiness of Floors Used in Live Performance Venues (document number Floors/2006-8013r3)

Public review period: 2 November through 17 December 2018
(Earlier responses will be accepted. Later responses may not be considered as part of this review.)

Question: Should ANSI E1.34 - 2009, Entertainment Technology -- Measuring and Specifying the Slipperiness of Floors Used in Live Performance Venues, be reaffirmed as an American National Standard? Please indicate "Yes," "Yes with comments," or "No with reasons."

Yes

**Yes with
comments**

Please record your comments on the next page in the field provided.

**No with
reasons**

What is wrong? Please explain on the next page what would need to be changed and how it would need to be changed to earn your unqualified "Yes." Give a justification for the change. Please provide wording you would like to see in the standard to resolve your concerns.

I hereby grant ESTA the non-exclusive, royalty-free rights to use my comments, and I understand that I acquire no rights as a joint author in any publication in which my comments are used.

Secretary
Board of Standards Review
American National Standards Institute
25 West 43rd Street
4th Floor
New York, NY 10036
psa@ansi.org

Please record below any comments or objections to the standard. Please be as specific as possible and cite what text needs to be changed, how it needs to be changed, and why, if you are recommending that we make changes. Do not pose rhetorical questions that require a reader to infer your objection. The committee may make no change to resolve an objection if it cannot determine what change would satisfy the commenter.
