Reaffirmation of ANSI E1.16, Configuration Standard for Metal-Halide Ballast Power Cables

Referenced document: ANSI E1.16 – 2002(R2017) Entertainment Technology—Configuration Standard for Metal-Halide Ballast Power Cables (document number EP/2000-7007r5)

ANSI public review period: 20 August through 4 October 2021
(Earlier responses will be accepted. Later responses may not be considered as part of this review.)

Question: What is your opinion of ANSI E1.16? Is it good as it is and should be reaffirmed, is it good but would be better with some changes, or is it unacceptable? Please click the appropriate radio button.

It's good.

It's good but could be better.

Please record your comments on the next page in the field provided.

It's unacceptable.

What is wrong? Please explain on the next page what would need to be changed and how it would need to be changed for you to click "It's good." Give a justification for the change. Please provide text for inclusion in the standard that would resolve your concerns.

I hereby grant ESTA the non-exclusive, royalty-free rights to use my comments, and I understand that I acquire no rights as a joint author in any publication in which my comments are used.

Please record below any comments or objections to the draft standard. Please be as specific as possible and cite what text needs to be changed, how it needs to be changed, and why, if you are recommending that we change anything. Do not pose rhetorical questions that require the reader to infer what your objection is. The committee may decline to make a change to resolve an objection if it cannot determine what change would be needed to satisfy the commenter. DO NOT RETURN A MARKED UP COPY OF THE DOCUMENT.
