Please record below any comments or objections to the draft standard. Please be as specific as possible and cite what text needs to be changed, how it needs to be changed, and why, if you are recommending that we make changes. Do not pose rhetorical questions that require the reader to infer your objection. The committee may decline to make a change to resolve an objection if it cannot determine what change would be needed to satisfy the commenter. Mark-up versions of the draft standard will not be accepted.
