

# Reaffirmation of ANSI E1.5 – 2009 (R2018) Public Review Response Form

**Referenced document:** ANSI E1.5-2009 (R2018), Entertainment Technology — Theatrical Fog Made With Aqueous Solutions Of Di- And Trihydric Alcohols (document number F&S/1997-3017r10)

**Public review period:** 27 October through 11 December 2023  
(Earlier responses will be accepted. Later responses may not be considered as part of this review.)

**Question:** Do you think ANSI E1.5-2009 (R2018), Entertainment Technology — Theatrical Fog Made With Aqueous Solutions Of Di- And Trihydric Alcohols, is good as an American National Standard, that its requirements are neither inadequate nor excessive for offering reasonable protection for the identified population? Please indicate "Good," "Good but could be better," or "Bad."

**Good**

**Good, but  
could be  
better.**

Please record your comments on the next page in the field provided.

**Bad**

What is wrong? Please explain on the next page what would need to be changed and how it would need to be changed to earn "Good." Give a justification for the change. If possible, please provide text you would like to see in the standard to resolve your concerns.

***I hereby grant ESTA the non-exclusive, royalty-free rights to use my comments, and I understand that I acquire no rights as a joint author in any publication in which my comments are used.***

Please return the completed Public Review Response Form with comments in electronic form to:

ESTA Technical Standards Managers  
[standards@esta.org](mailto:standards@esta.org)

You should receive a reply receipt within a week of sending your comments. If you do not, please enquire.

Please also send a copy of the completed Public Review Response Form to:

Secretary  
Board of Standards Review  
American National Standards Institute  
25 West 43rd Street  
4th Floor  
New York, NY 10036  
[psa@ansi.org](mailto:psa@ansi.org)

Please record below any comments or objections to the standard. Please be as specific as possible and cite what text needs to be changed, how it needs to be changed, and why, if you are recommending that we make changes. Do not pose rhetorical questions that require the reader to infer your objection. The committee may make no change to resolve an objection if it cannot determine what change would satisfy the commenter.
