

## Public Review Response Form BSR ES1.40, Event Security

**Referenced document:** BSR ES1.40, Event Security (doc. number ES/2022-20009r1b)

**ANSI public review period:** 12 May through 26 June 2023  
(Earlier responses will be accepted. Later responses may not be considered as part of this review.)

**Question:** Do you recommend we accept BSR ES1.40 as an American National Standard? Are its requirements reasonable and helpful? Please indicate "Yes," "Okay but needs improvement," or "Not acceptable."

**Yes**

**Okay but needs improvement**

Please record your suggestions for improvement on the next page in the field provided.

**Not acceptable**

What is wrong? Please explain on the next page what would need to be changed and how it would need to be changed to earn your unqualified "Yes." Give a justification for the change. Please provide text for inclusion in the standard that would resolve your concerns.

Please record below any comments or objections to the standard. Please be as specific as possible and cite what text needs to be changed, how it needs to be changed, and why, if you are recommending that we change anything. Do not pose rhetorical questions that require the reader to infer what your objection is. The committee may decline to make a change to resolve an objection if it cannot determine what change would be needed to satisfy the commenter.
