

**Public Review Response Form**  
*Introduction to Modern Atmospheric Effects*, 6th edition  
**Entertainment Services and Technology Association (ESTA)**

**Referenced document:** *Introduction to Modern Atmospheric Effects*, 6th edition (document number: F&S/2018-3017r3)

**Public review period:** 12 February through 8 April 2019  
 (Earlier responses will be accepted. Later responses may not be considered as part of this review.)

**Question:** Do you find that the sixth edition of the *Introduction to Modern Atmospheric Effects* offers information at a reasonable level of detail for an introductory text, that it is neither too dense nor too light on the subject, and that it does not contain misinformation or false statements? Please indicate "Yes" (it's good), "Yes with comments (it's good but could be better)," or "No with reasons" (it has major problems or errors).

**Yes**

**Yes with comments**

Please record your comments on the next page in the field provided.

**No with reasons**

What is wrong? Please explain on the next page what would need to be changed and how it would need to be changed to earn your unqualified "Yes." Give a justification for the change. Please provide text for inclusion in the document that would resolve your concerns.

***I hereby grant ESTA the non-exclusive, royalty-free rights to use my comments, and I understand that I acquire no rights as a joint author in any publication in which my comments are used.***

Please record below any comments or objections to the document. Please be as specific as possible and cite what text needs to be changed, how it needs to be changed, and why, if you are recommending that we change anything. Do not pose rhetorical questions that require the reader to infer what your objection is. The committee may decline to make a change to resolve an objection if it cannot determine what change would be needed to satisfy the commenter.
